Breaking the Spell: Religion as a Natural Phenomenon ... Breaking the Spell: Religion as a Natural Phenomenon is a 2006 book in which the American philosopher and cognitive scientist Daniel Dennett argues that religion is in need of scientific analysis so that its nature and future may be better understood. Breaking the Spell: Religion as a Natural Phenomenon by ... In Breaking the Spell Dan Dennett, Professor of Philosophy at Tufts University, examines religion as a natural phenomenon. In other words, he examines the evolutionary, sociological and psychological factors that served to make religion ubiquitous among Homo sapiens. Breaking the Spell Religion as a Natural Phenomenon Break the Religious Spell, pick up this book. By Randall Jimenez, Albuquerque, NM. This is the greatest book I've ever read on religion. In Breaking the Spell, Daniel Dennett seeks to literally break the religious spell which has been cast on his readers, depicting religion as a natural and sociological phenomenon.

Breaking the Spell: Religion as a Natural Phenomenon ... In his book "Breaking the Spell" by Daniel C. Dennett wrote "Religious cults (or pseudo religions) and political fanatics are not the only casters of evil spells today. Think of the people who are addicted to drugs, or gambling, or alcohol, or child pornography." Breaking Spell Religion Natural Phenomenon, Feb 14 2006 ... Professor Dennett talked about his book Breaking the Spell: Religion as a Natural Phenomenon, published by Viking. He analyzed the purpose of religion and described religion as a cultural. Breaking the Spell: Religion as a... book by Daniel C. Dennett Breaking the Spell is merely Dennett's way of broaching the topic, throwing out ideas that those who do have more experience than Dennett in these fields can attempt to refute or prove. The book is intended for lay people--specifically lay people who have religious beliefs.

Breaking the Spell: Religion as a Natural Phenomenon Breaking the Spell: Religion as a Natural Phenomenon View on Amazon View on iTunes This book is Daniel Dennett's purely scientific take on religion. Dennett, a cognitive scientist and a philosopher, contends that a scientific analysis of religion could actually help predict the future of the phenomenon. Breaking Free From the Spell of Religion - OnFaith The spell of traditional religion had been broken, and I was free. In his song, King uses the word "free" seven times in four lines, as if to press the point that freedom itself can become oppressive.
